Camp Clifton Summer Education Program

The **Summer Brain Gain** is Boys & Girls Club of America's summer learning initiative created to mitigate or reverse summer learning loss. The **Summer Brain Gain** Program consists of six weeks of robust summer learning. Each day members spend 120 minutes of academic lead instruction performing engaging theme-based activities. Project-based learning is the guiding instructional approach for the **Summer Brain Gain** curriculum. The approach establishes Club members as the drivers, and they are highly engaged in both learning and fun. Club professionals and activity leaders support, facilitate and guide these activities in a role more like mentor or coach, rather than a teacher.

Summer Brain Gain incorporates the following guiding principles:

- **Project-Based Learning Principles**- Youth engage in a process of learning through discovery, creative expression, group work toward a common goal, and a final project or production.
- **Learner-Centered Activities**-Focuses on the individual.
- **Mastery Programs**-Impart or transfer essential skills and knowledge; provides activities that meet the educational, emotional and physical needs of members ranging from early elementary school (grades 1-2), older elementary school (grades 3-5), and middle school (grades 6-8).
- **High-Yield Activities**-Impart fun with a purpose, reinforce and enhance knowledge and skills.
- **STEAM (Science, Technology, Engineering, Arts, and Math) Integration and Linkages**-Provide opportunities to reinforce reading, math, and writing skills through computer use and access to the Internet. Includes expanded learning opportunities incorporating STEAM.

STEM Mentoring-Endangered Species Adventure. Explore threatened animals' habitats and how to protect them. For ages 7 to 10 only. This program runs eight weeks.
