

KinderSmile Oral Health Program

April 2-4, 2018. Register at Front Desk

EDUCATION

Volunteers from KinderSmile Foundation will be visiting the Boys & Girls Club to teach them about dental hygiene and to demonstrate proper tooth-brushing technique.

PREVENTION

One of our licensed dental professionals will provide an oral exam, prophylaxis (teeth cleaning) and fluoride treatment to each child with signed dental consent from their legal guardian.

INTERVENTION

We will send home a letter and/or call you directly to share the findings of your child's oral exam and provide recommendations for follow-up. We can recommend a dentist that accepts your insurance, including KinderSmile Community Oral Health Center, our nonprofit dental home at 10 Broad St, Bloomfield, NJ.

Call 973-744-7003 or email kSF@kindersmile.org with any questions about KinderSmile Foundation and its programs.
