

# RAINBOW GRILLED CHEESE

Items Needed: Food Coloring, Shredded Mozzarella Cheese, Sourdough bread & Butter

## Step 1: Separate the Cheese into Bowls

Separate the cheese into the same number of bowls as you have food coloring. We used neon green, blue, purple and pink, so we used four bowls.

## Step 2: Add Food Coloring

Add in just a few drops of food coloring to the cheese and stir the color in with a spoon or fork. It doesn't take much to really transform the cheese into the vibrant color of your cheesing!

## Step 3: Make the Sandwich

Butter one side of the bread and place it on a heating buttered pan. Start adding your colorful cheese in any design or order you'd like. Top it off with another buttered piece of bread and flip it over when the bottom bread is golden brown.

## Step 4: Taste the Rainbow

Set on a cutting board when both sides are golden brown and the cheese is melted and gooey. Cut into it and be amazed!
